Get Your First Job as a UX or Interaction Designer certification with a Top 10% Distinction in May 2017

Completed Bachelors of Commerce under Shivaji University, Kolhapur in April 2005

Appeared for Google UX Professional

Creating intuitive and engaging user experiences through expertise in user research, information architecture, user-flows, wireframing, interactive prototypes, design systems, artificial intelligence and user testing. With a strong focus on user needs, complex business goals are transformed into seamless, user-centric solutions that enhance usability and drive engagement.

## Work Experience

### 24/7 Software (Crest Venues)

Manager - UI/UX Design | Jan 2025 – Till Date

Associate Manager - UI/UX Design | Sept 2019 – Dec 2024

Established UX and UI design standards, conducted user research and brainstorming sessions, and developed wireframes and interactive prototypes. Led and mentored a design team, fostering collaboration and ensuring alignment with project goals. Designed intuitive interactions, facilitated user testing, and integrated stakeholder feedback to enhance usability. Additionally, created visual assets such as design system and components, maintained design documentation, and optimized information architecture for seamless navigation.

Key projects - *IMS, CMMS, CheckPoint, Staff Scheduling, Chat Feature, Alerts, Inspection, Live Mapping, Layout Manager, Co-browsing.*

### Ityx Solutions

Sr.UX/UI Designer | Jun 2017 – Sept 2019

Spearheaded the development and implementation of comprehensive UI design standards, crafting detailed wireframes and interactive prototypes to guide product development. Designed and delivered high-quality UI components, including design system, custom icons, and precise UI specifications for seamless developer handoff. Collaborated closely with cross-functional stakeholders to integrate feedback, and optimized layouts to maximize usability and accessibility.

Key projects - *ThinkOwl, Messenger Parental*

### Creospan Solutions

Sr.UX/UI Designer | Sept 2015 – Jun 2017

Directed end-to-end UI/UX design initiatives by establishing design standards, crafting wireframes, prototypes, and user flows. Delivered intuitive interfaces, produced visual assets such as style guides and icons, and provided clear UI specifications for developer alignment. Maintained comprehensive documentation, streamlined information architecture, and prioritized accessibility to deliver user-centric experiences.

Key projects - *Greenheart GO System, Site Acquisition*

### Synechron Technologies

Sr.UI Designer | Jun 2014 – Aug 2015

Designed intuitive interfaces, enhanced UI aesthetics, designed custom icons, updated themes, and delivered detailed UI specifications. Managed design updates to ensure consistency and alignment with project goals.

Key projects - *MetLife, Wells Fargo, State Farm & Fly*

### Netcore Solutions

Sr.Web Graphic Designer | Mar 2011 – Jun 2014

Designed emails, landing pages, ad banners, and mobile sites for lead generation, converting wireframes into engaging designs. Partnered with developers, produced marketing materials, and learning UI/UX skills.

Key projects - *EMM*

### Avenues Technologies

Web Graphic Designer | Mar 2007 – Jun 2011
